

# LA Wildfire Relief Effort

At least seven separate wildfires have been ravaging Los Angeles and Southern California. More than **31,000 people** have been ordered to evacuate and more than **14,000 structures** are threatened, according to Los Angeles County's Coordinated Joint Information Center.

**Ekam USA** donated **10 air purifiers** to support victims with medical needs and provided **essential school supplies** to children and continuing to help people in need.

**DONATE NOW**

Our dedicated team on the ground is actively assessing needs and offering assistance. A heartfelt thanks to **Archana Sudamulla and the Ekam LA team** for their unwavering commitment despite facing challenges themselves.

More needs are emerging to help the LA community recover and return to normal. Currently, there is a need for bed linens, school supplies such as scientific calculators, and more.

**DONATE NOW**

Here's a glimpse of our on-the-ground efforts in LA, supporting victims in need. Special thanks to all our donors who made this possible!
